

## KYOCERA Precision Tools

# Occupational Health & Safety Management Systems Policy

KYOCERA Precision Tools values the health and safety of our associates, customers, suppliers, partners, and the community.

KPT believes that every accident can be prevented. It is leadership's commitment to provide a workplace free of recognized hazards, establish programs necessary to ensure a safe working environment and provide training to and consult with associates to ensure that they have the tools and knowledge needed to perform their jobs safely.

Associates are responsible for complying with KPT occupational health & safety policies and programs. In addition, associates are responsible for working safely so as not to impose a hazard upon themselves or others. Associates in leadership positions are responsible for supporting and enforcing KPT OH&S policies and programs.

KPT complies with applicable occupational health and safety laws and regulations and remains committed to providing an injury-free workplace by showing continuous improvement with our OH&S management system.

*Thomas J. Haag*
